

# Incorporation Investigation Is Underway Here

## Inside Goodwin

by Max Goodwin

For months we have been warned of Soviet duplicity. Because so much of this double dealing is at top government level, we often fail to see how it affects us personally.

We naturally feel the extra burden of taxation, see rearmament take place, watch our armed forces grow, but these reactions come so much later that we often forget what the original action was that projected us into this world situation.

That is one reason why many of us get a chuckle out of an unimportant event which was reported by the Associated Press the other day. It puts the double-crossing and lack of good faith on a personal level that even I can understand.

The AP lifted the story, they say, from Komsonom Prvda, Communist youth league newspaper.

The paper advised it's youthful readers: to trust no one, not even one's husband. And as for brides to be, they would do well to investigate thoroughly before they commit themselves to marriage which is good advice even in a democracy.

To prove the point, the newspaper reports how Rita Gurarovna married this Rusk without investigation. He wooed and won her in a few short weeks. He was the perfect bridgehead all the preceding support. After she had been eaten, he excused himself, walked out, and started. What's more states the newspaper, he took her coat and boots with him. That, opines the publication, is the unforgivable part of the affair.

## Dr. J. C. White Heads Little Theater Group

The Heartland Players, Lemon Grove's Little Theater Group, named Dr. James C. White as president. Tod Ballantine Vice President of the newly formed club. Other officers include William Baxter, treasurer; Arlene Stammerjohn, secretary.

An installation ball is planned for September 19th at Casper's Ranch.

Dr. Jim White invites all persons interested in the Little Theater to become members of the Heartland Players. Next meeting will be held July 2 at the home of Dr. Wesley Herbert for further information regarding membership or activities of the club call H-6-5153.

## 40 YEARS AGO

(From old newspaper files) Mrs. Eliza Stewart of 32nd and B streets (San Diego) attended the church reception at Lemon Grove on Friday afternoon last.

Full boat race, lots night at the station (in Lemon Grove). Size \$8 x 25¢ for \$200.00. One third cash balance to suit.

John Kynder of Ocean Beach is building a half dozen cottages on lots 39 x 40, block 70, on Narragansett street. These lots were purchased from Mr. Albert of Lemon Grove.

## Free Trip to Florida Available

G. O. Bell, whose initials spells "go" wants to go east. He wants to go east in his late model sedan and trailer but he wants a driver.

Plans are to leave for Florida when a driver is ready. Only costs involved will be cost of food. Bell may be contacted at 4953 Broadway.

# Lemon Grove Review

Vol. 4, No. 44

## NEW APPLIANCE FIRM OPENS WITH FAN FARE OF FREE GIFTS

The latest addition to Lemon Grove's growing business community will be added this week when Marjorie's Appliance Co. holds open house at their home in Ted Mangano's new building at 7971 Broadway.

The firm will be operated by John and Marjorie Dresbach who recently moved here from Yuma.

Of major interest in connection with the opening is the giving of a 9 cubic foot Frigidaire and other electric household items as door those who registered the Thursday and Friday Draw. There will be 8 prizes. Winners will be among p.m. Friday at the store.

In addition to the Frigidaire, a Marjorie's Packard Bell Radio, a Wafflemaster and a Coffeemaker will be given. Names of the winners will be announced next week and a list of the winners will be carried in the next issue of the Review.

A large quantity of free gifts will be distributed on opening days. Cologne for the ladies, keychains for men, balloons for kiddies and soft drinks for everyone will be distributed on a come one, come all basis.

Marjorie's will carry O'Keefe and Merritt gas ranges, Packard Bell television and radios and is the only Lemon Grove dealer for Frigidaire.

A complete service department will function as a part of the operation.

Dresbach operated a refrigerator sales firm and was himself a commercial refrigeration contractor in Yuma.

They reside at 9228 Campo Road. The firm will be open every day except Sunday.

## Assemblyman Dune Visits Lemon Grove

Assemblyman Francis Dune, of Oakland, Chairman of the Assembly Education Committee, called at the Lemon Grove school offices Monday to state the Initiative measure sponsored by the California Teachers Association, calling for increased State funds for current operation of schools would be Proposition No 2 on the November ballot.

He also stated that the Governor was calling a special session of the legislature August 4 to place another State bond issue on the November ballot for continuing State aid for school construction. He predicted that disagreement will arise in the legislature over construction of multipurpose rooms with State funds. Mr. Dunn pointed out that school men must make amply clear the wide variety of teaching uses a multipurpose room provides, such as audio visual instruction, public speaking, indoor physical education, dining area, demonstration programs and community meetings.

Mr. Dunn strongly urges continuing to include multipurpose rooms in the State School Building Aid Program.

## School District Offices To Move

Bodies offices of the Lemon Grove School District will move July 1 from its present location at 7256 Golden Ave. in the Medical Dental Building, to 3202 Kempf Street. The new location is the former residence of Theodore Mangano, which was recently acquired as an addition to the Lemon Grove Intermediate site. The Mangano house will serve as temporary quarters until such time as the development of the athletic field on Kempf Street is completed.

Board members emphasized the fact that until suitable quarters could be constructed for business offices, maintenance shops, supply storage and warehousing, the school district would face the alternative of using badly needed classroom space or renting quarters to houses these necessary services.

## Dr. Gigliotti Returns To Washington

Dr. Frank Gigliotti, national commander of Regular Veterans Association of United States returned to Washington this week.

He lives at 3777 Gigliotti Drive in Lemon Grove. During his return to California, he was unanimously nominated by the California group of the Veterans Study Committee, Luther Hussey, chairman; Women's Air Race Committee, Bob Gauldin, chairman,

## It'll Be A Long Wait Between Hits In Lion - Kiwanis Game

Officials of the Lions - Kiwanis baseball game today called on executives of the First National Bank to act as scorekeepers in the forthcoming baseball game between the two clubs.

The game, scheduled for August 10th is expected to attract a capacity crowd and Bruce Barnes and Jack Koop executives of the game will be pressed into doing a double service by guaranteeing a fair game on the score, and exact count on the proceeds. The proceeds incidentally go to the purchase of uniforms for the Grove Elementary school band.

Recently, a challenge of a negative around the basepath between Grant Hadley of the Lions and Chan Mason of the Kiwanis seemed to have reached a sensible solution by Hadley announcing that he would be leaving for Mexico just prior to the contest.

He also stated that the Governor was calling a special session of the legislature August 4 to place another State bond issue on the November ballot for continuing State aid for school construction. He predicted that disagreement will arise in the legislature over construction of multipurpose rooms with State funds. Mr. Dunn pointed out that school men must make amply clear the wide variety of teaching uses a multipurpose room provides, such as audio visual instruction, public speaking, indoor physical education, dining area, demonstration programs and community meetings.

In addition to such an again off again side issues there will be a races dinner in connection with the game. Proceeds from the dinner also go into the uniform fund.

Dr. White, recently named head of the Grove Little Theater group will offer a character sketch between each inning. Dr. Brassington has offered to do a free blindfolded tonsillectomy on the Lion making the first hit. Lion medics, Dr. David Wilhite, made a similar offer to the Kiwanis.

Bob Von Willer, new Lion president is going to give a bright red plaster job to the first man on his team to hit a home run while Bob Schnick is going over his stock of solar heating system for suitable induction along the same line. For the uninitiated, Von Willer operates a plastering firm while Schnick has a heating and sheet metal concern.

Bob Von Willer, new Lion president is going to give a bright red plaster job to the first man on his team to hit a home run while Bob Schnick is going over his stock of solar heating system for suitable induction along the same line. For the uninitiated, Von Willer operates a plastering firm while Schnick has a heating and sheet metal concern.

Tony Sonka is still the leading choice for umpire. He recently returned from a vacation trip to Los Angeles area where he went to rest his eyes.

The game will get started promptly at 4 p.m. The remaining question to be settled in the quitting time.

## Chamber Committee Heads To Give Reports

Chamber of Commerce directors will hold their July board meeting Tuesday at 7:30 p.m. in the Justice Court, 3440 Main Street. Reports will be called for from standing committee chairmen and from the following special committees: New LG Brochure, Bearice Garber, chairman; Proposed Lighting district, A. F. Sonka, chairman; Membership Drive, Ken Rister, chairman; Annexation - Incorporation - Status Quo, chairman; Women's Air Race Committee, Bob Gauldin, chairman,

## S.D. County Tax Value Set At 600 Million

Assessed valuations in San Diego County will approximate 600 million dollars for 1952-53, Arthur C. Eddy, executive assistant to the tax assessor, estimated this week.

Eddy said locally assessed property valuations probably will increase by 45 to 50 million dollars over the current year's figures. The locally assessed roll totaled \$43 million dollars for 1952-53, and the total valuation, including the state's assessments, was \$44 million dollars.

A total of 134 new subdivisions have been accepted, Eddy reported. They will account for an estimated increase of five million dollars in the 1952-53 valuations.

"These are kind valuations alone," Eddy explained. Land in subdivisions is more valuable than it was in acreage, he pointed out.

New buildings will add 30 million dollars to valuations, Eddy believes.

Personal tax statements also will make up part of the total.

These statements showed a 17,000 numerical increase up to yesterday to 151,000.

The deadline for making the statement is noon of the first Monday in July, which will be July 7 this year. Aircraft plants will show a tremendous increase in inventories, Eddy said.

## Delafields Have Visitors from Washington

Visitors from Washington, D. C. at the home of Mrs. Delafield McLean and Mrs. D. Sutherland on Olive St. are Elder Dwight Delafield, Mrs. Delafield and their children, Bobby and Corrine. Elder Delafield is gathering material for a book which he is writing.

## New Tomato Varieties To Be Viewed

Tomato growers will have an opportunity to view 14 new varieties and chemical fruit set with hormone field plots on 14 San Diego County farms this week. Farm Small, Otay.

## Who's Who in Lemon Grove

A brown eyed, brown haired young lady will step from a sleek prop plane in Teterboro, N. J., early next month. The lapse of time between leaving the Santa Ana Airport and her arrival will be the hinge upon which Lemon Grove's prominence in the sixth Annual Women's Transcontinental Air Races rests. This woman is Mrs. Red McCraig of 7135 Mt. Vernon.

Isabelle McCraig, whose hobby has spent the last 18 years as a Navy pilot has quite a flying record herself.

She served in the WASPS during the past war. As a civilian pilot she spent several of the war years test flying planes and towing targets. She once evaded a B-29 in an incongruous seeming chase for

such a wisp of a woman.

In the more ordinary affairs she is chairman of the Bonn Mission in Mike's room. Mike is her 5 and a half year old son. There is considerable action going on at home.

She is the treasurer of the local group. She treasurer of the embroidery section and on the nominating list for national treasurer.

In the more ordinary affairs she is chairman of the Bonn Mission in Mike's room. Mike is her 5 and a half year old son. There is considerable action going on at home.

The menagerie consists of two rabbits a big boxer named Rex and a turtle named Red Red Barry.

"He's a good little fellow otherwise," she reports.

Mrs. McCraig is a registered nurse and a graduate of the Randolph Field school of Aviation Medicine.

She is co-owner of the Hilltop Chateau. Her sister, Isabelle Garrison, manager of The Chateau is a Lemon Grove hotel specializing in rest and personal service.

Mrs. McCraig has a flying record herself, could be a little better. However, she doesn't always perform her assigned tasks, like feeding the menagerie.

The menagerie consists of two rabbits a big boxer named Rex and a turtle named Red Red Barry.

## Around The State In Civil Defense

Three California cities stand among the first five in the nation for top attendance at the Alert America exhibit, sponsored by Civil Defense.

Official attendance figures just recorded with the California State Office of Civil Defense by the Federal Civil Defense Administration and the Valley Forge Foundation, which presented the traveling exhibit under government sponsorship, list the following cities as the high five for the nation:

Los Angeles, California 51,951  
New York City, New York 44,000  
Oakland, California 28,648  
Washington, D. C. 28,000  
San Diego, California 27,893

"I heartily commend the Civil Defense organizations of these three California cities for the splendid job they did in promoting interest in the Alert America exhibit and also in augmenting the Federal show with original and interesting local exhibits which attracted attendance," declared Maj. Gen. Walter M. Robertson, State Director of Civil Defense.

The achievement of California's cities is more remarkable in view of the fact that the records were made against a time handicap. Los Angeles and New York each had the show for six days but Oakland and San Diego had the show for only three days plus a few hours, the fourth day, by comparison. Wash-

## Water Enough For All Of Us

When California, the water-scarce state, builds a saltwater barrier across the north end of San Francisco Bay, and quits pouring the raw off waters of the Central Valley into the sea, there will be abundant good fresh water for unlimited state development.

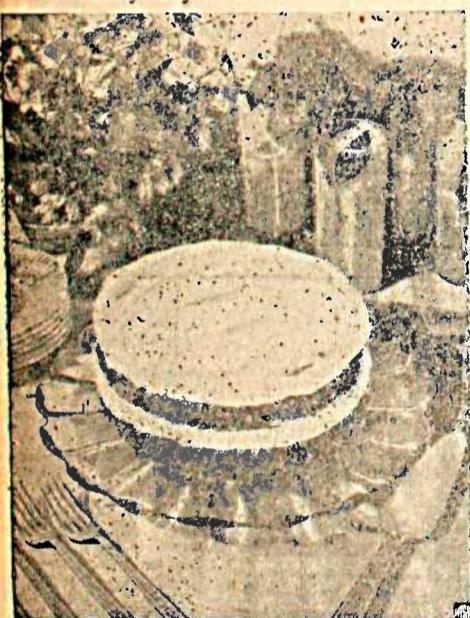

The accompanying drawing features the West Coast Canal by which the water can be distributed. A 500-foot pump lift from the northern lake near the confluence of the Sacramento and San Joaquin Rivers can take water by gravity along the hills, dropping off water for the South Lake and for many valleys, thence on the way to Southern California.

Along the Canal route are many natural sites for reservoirs, into which winter flood waters may be preserved so that a Canal of reasonable size can provide an all-year supply of water.

This West Coast Canal and the Caneways in the North and South portions of the Bay are proposals of the fine bunch of twenty-three engineers who cooperate in this public service under the name Allen Associates Inc. They worked out these proposals for the non-profit "California Transit and Defense

Foundation. Dr. C. had the show for eight days."

## Lazy Day Refreshments

Keep cool these lazy summer days by entertaining in an informal, casual manner. Good food is such an important part of any entertaining that it is essential to keep up to date on all short cuts. So be sure to use quick mixes frequently and save yourself hours in a hot kitchen. For example, the special cake pictured here is made with packaged devil's food cake mix. Thickly swirled with fluffy frosting or whipped cream it is a tempting dessert suitable for afternoon or evening refreshments. Tall, cool glasses of tangy lemonade is a perfect accompaniment.

### Quick Devil's Food Cake

1 package Swans Down devil's food cake mix  
1 teaspoon grated orange rind 1 1/4 cups milk

Turn cake mix into bowl; add orange rind. Add 1/4 cup of the milk, blend, then beat 2 minutes. Add half of the remaining milk, blend, and beat 2 minutes. Then add remaining milk and beat 1 minute longer. (Beat cake vigorously by hand or at a medium speed of electric mixer. Scrape bowl and spoon or beater often.)

Turn batter into 2 8-inch layer pans 1 1/4 inches deep, which have been greased with paper. Bake in moderate oven (375° F.) 20 minutes or until done. When cool, spread fluffy frosting or Whipped Cream between layers and on top of cake.

## It Was A \$45 Mistake

Nightmare of all newspapermen, the typographical error crept into Bob Browne's washer ad in last week's Review. Made it appear that Brown's was renting washers for \$5 a month. Should have been \$5 a month. Should anyone insist on paying the advertised price, arrangement can be worked out, says Brownie.

Thirsty State a chance to quaff gratis,

## Tangy Molded Salad

Cool looking and pretty as can be, with the sparkle of pelatin and ginger ale, is this molded salad. So many combinations of fruits and vegetables can be used in molded salads that they can be served often and each time the flavor will be different. Gelatin salads provide excellent way to use small quantities of left over fruits, juices and vegetables, too.

The addition of pale dry ginger ale gives pelatin — an unusual flavor and taste that makes them "different" and appealing to the appetite. A gelatin fruit salad can double as dessert, if you serve it with whipped cream.

**Cherry-Banana Salad**

1/2 cup pitted canned black cherries 1 1/2 cups pale dry ginger ale  
1 package raspberry gelatin 1/2 cup orange juice  
1/2 cup hot cherry juice 1 tablespoon lemon juice  
1/4 cup sliced banana

Drain cherries, reserve juice. Dissolve gelatin in hot cherry juice. Add pale dry ginger ale, orange juice and lemon juice. Chill until syrupy. Fold in cherries and banana. Pour into mold which has been rinsed in cold water. Chill until set. Unmold on bed of watercress or crisp greens. Garnish with whole cherries. Serve with mint sauce or cream dressing. Salad may be served as a dessert with whipped cream.

## New Feature for Flower Show

NOTE OF WELCOME to visitors in the three-acre flower show at San Diego County Fair, opening June 27 at Del Mar, will be sounded by scores of brightly-colored birds, including tropical songsters. M. E. Salsberry, show superintendent, makes friends (above) with one of the feathered newcomers.

## \$1.2 Billion Budget Looms

California's steady expanding fruit and vegetable canning industry now ours about 35 times as much money into the state's economy as it did a half a century ago.

Fruits and vegetables canned in 1900 by 1925 the value of the state's production last year. It is over three-quarters of the value of the entire power generating and distribution system and gas system of the Pacific Gas and Electric Company.

The proposed state expenditure for 1952 and 53 exceed the total sales of Montgomery Ward and Company last year, or the total sales of the nationwide Safeway chain. It is considerably more than twice the total spent by all advertisers in all of the Nation's magazines.

Clearly \$1.2 billion is a considerable sum of money, and it will come directly or indirectly out of the pockets of every California resident.

With this as a start, now try to comprehend the Federal budget of \$5.4 billion.

Let's look at one billion dollars another way. If a man started a business in the year A. D. One with a billion dollar, and if that business were so poorly managed that it lost \$1000 a day, it would still be a solvent concern today. More than that this business could go on losing \$1000 a day until the year 2730 before that billion dollars was exhausted.

Looking at it still another way the average weekly earnings of factory workers in California is about \$74. One billion dollars then represents the entire weekly wages of over 13.5 million workers. This is one third again as many people as all the men, women, and children who call California their home.

### HALF VALUE OF STATE'S CROPS

The amount of the proposed state budget equals approximately one-half the value of all California

## Timely Tips

Vacation time is here, and as with all usual living, you'll have more fun and time to enjoy yourself. But plan carefully in the beginning.

Make a list of what you'll need while traveling and what you need when you arrive at your destination. Then go over it and ruthlessly cull all that can possibly be eliminated. Too much equipment merely means added bulk. Making as many costumes as possible do double duty in one way to travel light and still have what you need.

Best headgear for travel is the little cap-like soft pillbox or soft cap. If you must take a fuzzy hat, wear it en route and pack the little changes.

Fold suit skirts at the hip line, not in the middle. Thus any crease that remains will come up under your jacket away from critical eyes.

These handy plastic bags you use for storing things in the refrigerator will prove equally useful for packing things for travel, whether it be for a full vacation period or just a day's outing in the country.

California brought in \$20,000,000 in output of canned fruits and vegetables had risen to \$200,000,000. In the next quarter century continuing expansion of the markets for canned products helped raise the value of the pack to its present level of over \$700,000,000 a year.

This money, in its normal circulation within the state, provides tens of millions of dollars for wages for agricultural and industrial workers, receipts for farm crops, business for stores and taxes for state and local governments.

**Freedom Shrinks  
As Statism Grows  
Latest Survey Shows**

How individual freedom and local government initiative are withering as the Federal Government is mushrooming was told today in results of a California survey just released.

It discloses that Federal jobholders in California outnumber all physicians, all teachers, all dentists, all registered nurses, all farm operators - and nearly outnumber these

combined occupations.

The survey, compiled by the National Association of Manufacturers Economic Research Council and released through its Southern California Section of the Committee on Government Economy, whose members are listed below, shows the following ratios:

Number of Federal civilian employees in California — 252,249; number of elementary and secondary school teachers in the state — 63,550; number of physicians — 16,668; number of active, professional registered nurses — 32,797; number

of farm operators — 137,000. "The Southern California NAM Section," said the report, "has been the growth of the Federal bureaucracy — to the point where its jobholders in this state exceed the number of persons engaged in such basic and essential services. As this happens, Federal regimentation grows and the individual's freedom to plan for himself shrinks."

"Real significance in the present number of civilian Federal employees in California, which the California Taxpayers Association says has increased about five fold during the past 14 years in which state population increased only about half, is in the steady mushrooming of Government functions," said the survey.

"Key to the increase in functions in turn are the compulsory services forced upon the individual, without regard to whether he may prefer to perform them for himself and without regard to whether these functions could better be performed by the individual or his local government."

"The effect too, upon local government and its essential services — schools, police and fire protection — is inescapable."

"In the case of the individual, he finds not only regimentation, but the expense of supporting this mushrooming bureaucracy takes nearly one fourth of his income in direct and concealed Federal taxes thus reducing his financial ability to plan for himself and his family."

"In the case of local government — the final fortress of freedom —

nearly 80 per cent of locally created tax revenues are first grabbed by the Federal Government, leaving less and less for local government and its essential services. Schools, hospitals, police and fire protection are suffering, as is local initiative and local ability to take care of ourselves."

This is usually followed, of course, by an offer of Federal help — and more regimentation, thus further reducing individual freedom and local initiative."

**Veterinary Association  
To Hold Convention**

The California State Veterinary Medical Association is holding its 64th annual convention at Arrowhead Springs Hotel, San Bernardino, California.

Highlights of the meeting will be technical papers delivered by Dr. Rue Jensen on Syndromes of Right Heart Failure in Cattle, Dr. T. J. Hage on X-Ray as a Diagnostic Aid in Diseases of Small Animals, and Dr. Leon Kanegis on Recent Trends in Veterinary Chemotherapy.

Out of state speakers will include Dr. Rue Jensen of Fort Collins, Colorado, Dr. Leon Kanegis of Pearl River, N.Y., and Dr. Jean Flint of Salt Lake City, Utah.

The Women's Auxiliary have planned many social activities. On Monday evening, June 16, there

VACATION CHURCH SCHOOL

Teachers and workers will be dedicated during the evening worship service beginning at 8:00 p.m. Colored slides of the last VCS will be shown and possibly a movie of Pictures Around the World which is the major project of the school system. Mrs. Verner Hansen is to direct the school which opens on June 30 at 9:00 a.m. There are still openings for children from first through seventh grades. Register Sunday morning, only fifty cents for three weeks VCS.

Mr. Roy's (Jr.) High attending camp at Cuyamaca this week are Louis Tovine, Ronald Brady, Robert Brady, Leah Conlee, Phyllis Wester, Joe Hansen and Keith Havens. Mr. and Mrs. Donald C. Jones are teaching and Mrs. Jones is serving as the camp nurse.

The Rev. Jones' sermon topic for Sunday morning, June 29 will be "The Original Story," and Mrs. Bette Ferr will be guest soloist.

People of the community not attending church elsewhere are invited to share the fellowship and services of this church.

Legion of Mary: 8:00 p.m. Mondays.

Sunday after 7 o'clock Mass.

Convert Information: 8:00 p.m. at Rectory, Tuesdays and Fridays.

**Wilson Boys  
Country Club  
Station**

Joe Wilson, operator of Wilson's Television firm at Campo, Imperial and Palm Avenues has purchased the filling station also located on the corner which he occupies.

The station, well known as the Country Club Service Station will continue in that name. It will also continue handling Hancock products.

A new feature, according to Wilson is that self service will be introduced in order to offer lower prices. Lady motorists however, will be served, he said.

Lube service will also be featured he said.

**Paint Winners  
Announced By Lewis**

Winners in the Lemon Grove Wallpaper and Paint door prize drawing have been named according to Ed Lewis, the shop's owner.

All the winners are from the local area. They are: E. L. Henry, owner of the Kitchen enamel; W. R. Hoye, winner of the bathroom enamel; E. L. Gurney, living room paint and enamel and Russell Davis, bedroom paint and enamel.

The shop held the drawing in connection with its opening earlier this month. It is located at 7840 Broadway.

**Paul Hendricks  
Takes A Vacation**

Lemon Grove's Food Center will be making the smiling face of Paul Hendricks for the next few weeks as Hendricks and his family take off for a well earned vacation. Lazette, his wife, and David, the chip off the old block, will accompany him to Norfolk, Washington and other points of the eastern seaboard.

**Hilltop Chateau  
Adds Building**

Construction of a \$12,000 cottage at Hilltop Chateau, was started Monday according to Mrs. Beatrice Garber, manager. Donald L. Garrett, brother of Mrs. Garber, is supervising construction and upon completion of the new unit in about eight weeks Mr. and Mrs. John A. Heyder of San Diego will become permanent guests. Hilltop Chateau is a residential hotel located at 6970 Central Ave.

**Helix Completion  
Delayed By Steel Strike**

Trustees of Grossmont Union High School District were in conference with O. L. Carpenter, contractor, and architects C. C. Curtis and George Foster this week to discuss the need to expedite completion of Helix High School. The school opening had been set for September 15.

Unavoidably delayed because of the steel strike are: Girls' Shower and Locker, Cafeteria and Industrial Arts Buildings. To be rushed are Administration, Boys' Shower and Locker, Music and Speech Arts Buildings.

The delay in completion of all buildings will hamper the program of a few departments but a full day of school for all students is assured.

The tentative budget for 1952-53 was adopted, calling for a current expenditure of \$1,228,000; \$271,000 was set aside for Capitol Outlay and Reserves. This compares with \$1,027,000 for current expenditures and \$230,000 for reserve for 1951-52 school year.

A board spokesman predicted that the tax rate would be 5 to 7 cents below the \$1.35 rate authorized by the special election in January. The increases are due to inflation salary adjustments and an enrollment increase of 400. Total enrollment will amount to over 2600.

Seven teachers were added to the staff. Supt. Lewis F. Smith reported that all positions were filled with the exception of a Journalism-English assignment at Helix High

The variety of errands and good

**Anniversary  
Communion  
At L. M. Presbyterian**

With a special communion service Sunday at the Worship hour, the La Mesa United Presbyterian Church, 1426 Harrison Avenue, will mark the third anniversary of the date when the Rev. Leon E. Raines held the first service. Since then there has been a steadily growing response from the community.

The congregation was formerly organized in October 1949 and now serves over 500 families through regular services, the church school, and the activities of its several organizations for men, women, youth etc.

The Sacrament of Infant Baptism was administered to the following children: Patricia Louise and Elaine Polak, daughters of Mr. and Mrs. Philip R. Polak; Donita Christine and Stephen Lockhart Abbott, daughter and son of Mr. and Mrs. Donald L. Abbott; and James Stephen Berres, son of Mr. and Mrs. Bernard M. Berres.

**Grove VFW Aids  
S.D. Encampment**

By John Landesco

Lemon Grove Post No. 2032 VFW played a major role in the encampment of the Department of California, which took place in San Francisco, a confluence of more than eight thousand people and 229 districts. To understand how this role was achieved one must know A. T. Henderson, "Dad" for 27 years Chief Machinist Mate in the Submarine Service, U. S. N., a raw-boned, seam-faced old salt. He is a past Commander of Lemon Grove Post, at present, Service Officer and Poppy Chairman; he is first Distinct Inspector and president of the Past Commanders' Club of the 1st District.

In the Encampment, he was co-Chairman of Registration — no small task to register and accredit so large a number of delegates. He was Chairman of the Past Commanders' Breakfast. To bring together all of the dignitaries past and present of the Department of California, to a breakfast at 7:00 o'clock sharp, have them lick their chops over the breakfast, start them on the business of the Encampment, and have them all happy that takes charm. Again, as chairman of the By-Laws Committee, to steer a group of Solons through the bickering and deliberations of amending 14 by-laws, referring only a 15th to the National Council — that takes versatility.

In all of his labors "Dad" had the help of an alert group of Lemon Grovers: Commander Remo Lusardi, Bob Johnson, Sidney Temple, Bill Gandy, Frank Carpenter, W. G. and Esther Sterling, who served with filial loyalty.

The Lemon Grove Post, on Imperial, gives or social center for more than a hundred families of this area. The members are veterans of the 1st and 2nd World Wars, with the Koreans as new accession. It has been in existence for 21 years. The building was moved to its present site from the beach, and was formerly a yacht club. At the frequent turkey feasts "Dad" does the cooking, helped by the Auxiliary of which Esther Henderson, his wife is a Past President, and his daughter, Mrs. Francis Ann Myers, is current President. Why do so many people come to these dinners? Because the hosts and hostesses look on with a gleam as the young with big appetites come for a heaping second helping.

**State's Minimum  
Pay For Office Girls  
Set At \$200 A Month**

All beginners in the office worker class, will get a 5 percent raise after six months, and automatic annual raises until they reach the limit for their classes the Board said.

Starting July 1, every girl who goes to work for the California state government — even the teenager fresh from high school or business college — will earn at least \$200 a month.

This will be the effect of an across the board pay raise effective that date, the State Personnel Board said today.

The \$200 salary is the starting figure for inexperienced clerks and typists. Girls who qualify as intermediates will start at \$220 or \$231.

The board said there is a steady wide demand for stenographers and that in most places typists can also get immediate employment. Straight clerks may have to wait their turn a lot.

Volunteer leaders who have been trained in homemaking skills were awarded certificates Wednesday at the La Mesa Youth Center.

From Lemon Grove the following women received the certificates: Mrs. H. E. Stodie, Mrs. Helen Sanchez, Mrs. Carl Stewart, Mrs. John Koepman and Mrs. Chester Hawkins.

These women were a part of a group of 132 trained by Mrs. Dorothy Wilson, Home Advisor of the University of California in subjects such as making children's clothing by factory methods, how to judge good lamps and lighting, how to make lamps and shades, after ready to wear, cook fish, buy food and judge new textiles. These leaders taught local groups of women the subjects in which they had recent training.

**Part Of State's Food Pack Tabbed For Defense Use**

California farmers and canners are pitching in to bolster the nation's defense effort by supplying an estimated 79,947,552 cans of fruits and vegetables to the armed forces this year, according to American Can Company estimates.

The quota of each canner under the defense program is determined by a U. S. Department of Agriculture formula. These range from 4.7 percent to 35.7 percent of the various packers for previous base years.

The Army Quartermaster Corps will purchase all the canned food allotted under the plan but the Navy, Marine, Air Force, Veterans Administration and other government agencies will share in its distribution.

The largest quota among California fruits will be peaches, with 23,492,696 cans. The 8,151,624 cans of tomato products will lead the vegetables. Other quota estimates are apricots, 14,671,704 cans; asparagus, 3,114,840 cans; fruit cocktail, 10,704,328 cans; radish figs, 4,233,575 cans; tomato catsup, 6,867,912 cans.

**Junior Division For Fair Livestock**

Approximately five hundred head of stock is expected to make up the Junior Livestock Division at the San Diego County Fair June 27-July 6.

The Junior Division is composed of 4-H and Future Farmers of America members, reports Barry Leeson, Farm Advisor.

Each member is allowed to sell one animal at the auction, July 3rd, any others will sold in groups.

Projects exhibited at the fair by 4-H Club members are result demonstrations of work designed to illustrate the value of methods used.

**"Fallbrook Story" To Be Premiered**

World premiere of The Fallbrook Story, a motion picture in color made by the people of Fallbrook telling the story of their dramatic fight to prevent "Bureaucratic Groups" taking water rights enjoyed by private citizens since California became a State will be shown in the Fallbrook High School Auditorium, Saturday, June 28th 8:00 p.m. The premier is a special invitation showing.

**DAIRY DATA**

**SOME ODDS AND ENDS ABOUT THE DAIRY INDUSTRY**

Cascading over the brim day and night, it would take more than a week and a half for the milk produced last year in California to flow over Yosemite Falls, one of the world's highest waterfalls.

A British cow, Manningford Faith Jan Graceford, currently holds the world's record lifetime milk production, 267,315 pounds. Right on her heels and narrowing the gap daily is California's Panco Hazel with 258,301 pounds (more than 12 tons). Owned by the Pellegrin family of Whittier, Calif., Panco Hazel is in excellent condition and is expected to break the world's record very shortly this despite her 17 years, the human equivalent of which is almost the century mark.

California's 160 odd milk inspectors and 75 laboratory technicians who also devote their full time to the analysis, examination and classification of milk samples, are required by law to pass a rigid civil service examination before qualifying for employment. They must be soundly versed in public health sanitation, processing, production chemistry, biology, bacteriology and a number of other subjects related to the protection of our daily milk supply.

More than three quarters of California's nearly 20 thousand farms reporting milk sold, also reported they used milking machines.

California leads the nation in the production of cottage cheese, sherbert and ice milk—is second in the production of evaporated milk third in total ice cream production and fourth in total milk production.

In 1952, California's dairies produced 6,014,000,000 pounds of milk. If it were all bottled, that would add up to 3 billion quarts. However much of this colossal amount went into the manufacture of such products as cheese (92,616,000 pounds), butter (21,848,000 pounds), ice cream (40,946,000 gallons), buttermilk (17,930,000 gallons), and evaporated and condensed milk (401,373,000 pounds). Milk and other dairy products accounted for approximately one-fourth of the food consumed last year by Californians.

**Public Notices**

**NOTICE OF PUBLIC HEARING**  
A public hearing will be held in Room 310 San Diego City and County Administration Bldg., Civic Center, San Diego, California, on Friday, July 11, 1952, at 9:30 a.m., on an application for the reclassification of Wly 160,13' of N.Y. of that portion of W 332,26' of lot 20, Sub. No. 3 of Lot 12, Rancho Mission of San Diego, according to L. S. Map thereof No. 5, filed in office of Recorder of ad San Diego County, lying S of S line of County R. S. 1125, according to plot thereof on file in office of Surveyor of San Diego County and adjacent areas, Lemon Grove Zoning District, from B-2-A, Residence District, to B-3, Dwelling Groups District, being requested by Peter J. Chappelle and Wallace G. Chandler, and in accordance with Ord 268 (NS), San Diego SAN DIEGO PLANNING COMMISSION  
By C. J. Martin, Secretary  
Published June 26th in the Lemon Grove REVIEW.

**Avocado Cost Figures Available**

A new avocado cost study for San Diego County has been released by the University of California Farm Advisors Office. The data, which is for the 1951 crop shows yield, costs, rents and pictures for 1,000 acres of avocados covering about 100 acres.

Total costs per acre reflected no significant change from the previous three years. Returns to the growers were three to four cents a pound lower than 1949 and 1950. But the more important return figures show total income per acre did not decrease because of the higher average production. Three of the records showed a net loss for the year's operation.

The figures show that these cooperative growers applied around 22.2 acre inches of irrigation water. The average cost of this water was \$3.00 an acre foot. Slightly more than 200 pounds of nitrogen were applied per acre, and the cost of the fertilizer materials averaged \$4.00.

**Skinner Expands New Retread Shop**

Two new tire molds have been installed in the newly opened Skinner Tire Service, 7219 Broadway.

The new equipment need was dictated by increased business over the volume anticipated when he started the plant here three months ago. The firm uses Tuf-Tred, a fully guaranteed, long wearing substance which has become nationally famous in recent years.

A CENTRIFUGE is familiar to most people as a memory of their high school chemistry days. Shown above is the "daddy" of the smaller centrifuges, which is used by the scientists of the Nutrite Research Laboratories. Microbiologist Joe Liuze places two test tubes opposite each other in the machine. One contains a solution which has solid particles of some element suspended in it. The other is filled with an equal amount of another liquid which serves as a balance. The test tubes whirl at a rate of about 2,000 revolutions per minute, and when the machine stops, the solid particles are resting in the bottom, completely separated from the liquid. Liuze can then pour the solution off and continue with his experiments.

**New Barber Shop Opens**

Stanley Smith, well known Lemon Grove barber has opened a shop of his own on Broadway near Massachusetts.

The premises were formerly oper-

ated by a group of fortune tellers. They didn't tell that Stanley would open a barber shop there however.

For the time being the shop will be a one man shop. It will be open every day except Sunday and Monday.

**Farmers Own Three - Fourths Of Farmland**

More Calif. area farmers own their land than ever before, according to the recent census. This figure has been developing since 1935 when California had 32,000 tenants who rented 41% of the land they farmed. By 1940 this figure had dropped to 16,000.

Butter farmers better times, and more farm machinery have influenced this trend. Land rented by operators has also been decreasing — 37 percent of all farm land in 1945, 35 percent in 1950.

Of all California's farmers, 74 percent now own all the land they farm. Thirteen percent own part of the land they operate. Twelve percent own all of the land.

**Announce Annual Junior Baseball Tourney**

Anaheim, Calif. — The American Legion Junior Baseball Anaheim Tournament Committee set the tournament banquet date for Aug. 4.

The banquet will be held this year on the playing field of Anaheim's La Palma Park Stadium where the Seventh Annual American Legion Junior Baseball Tournament will be held starting Aug. 9. The championship being decided on or about Aug. 29. It is at this banquet that the drawing for team pairings are held.

John "Beans" Reardon will again serve as Honorary Tournament Umpire. In charge Reardon now retired was for twenty-four years a top National League umpire.

Sportswriters, motion picture,

radio, television and baseball personalities will group at the speakers table.
